Hello Hernando:

It would be good if we could make progress on some things for the work on the product.

You could give me all the product information you have so I can have it ready for the client presentations:

- Product with images
- Product characteristics
- Market share in Colombia (this will help me show buyers that zenu is the leading brand in this segment)

- In general, everything you can give us that would be useful for making a good presentation to clients.

Best regards,
